

barringer high school

wake up everybody

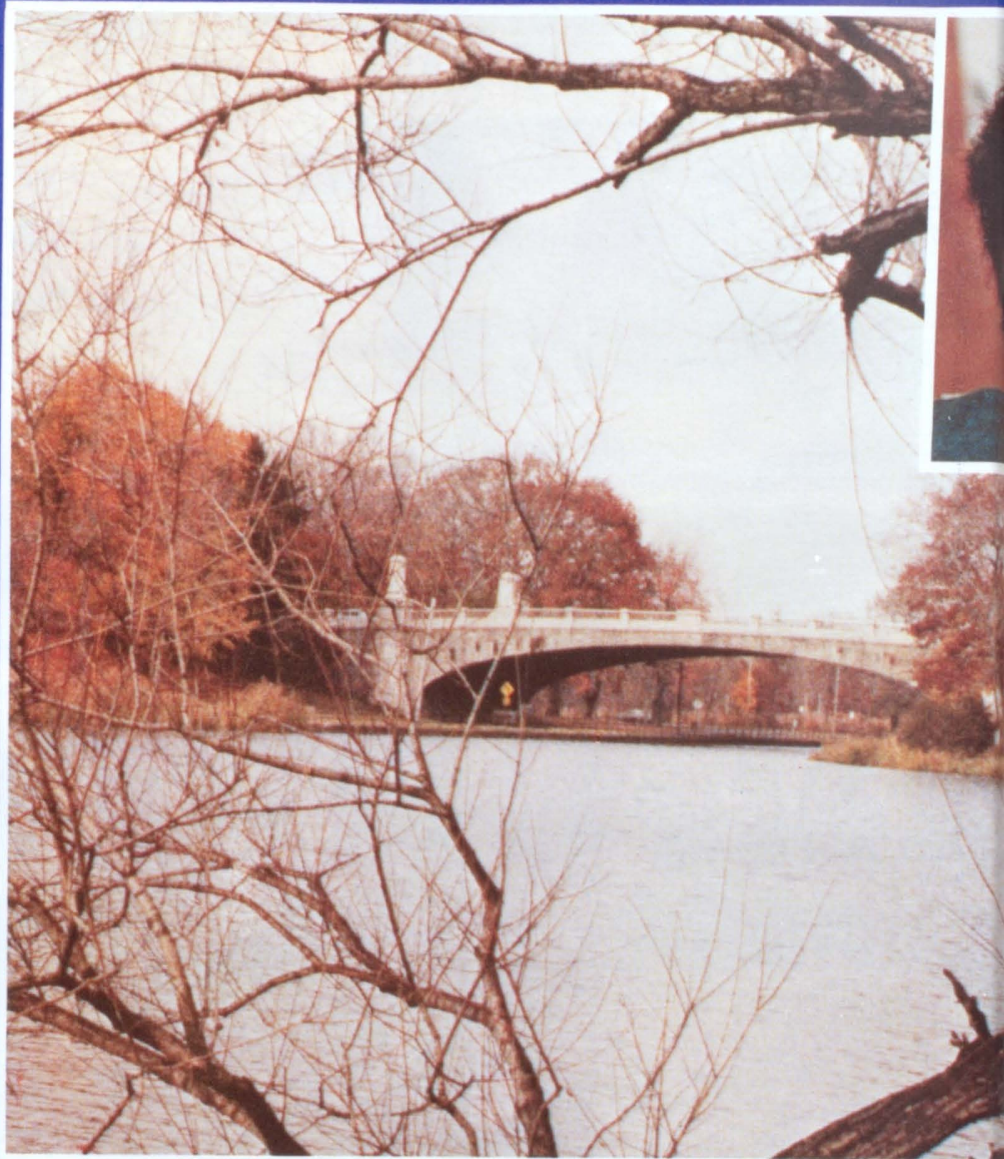

No more backward  
thinkin', time for  
thinkin' ahead

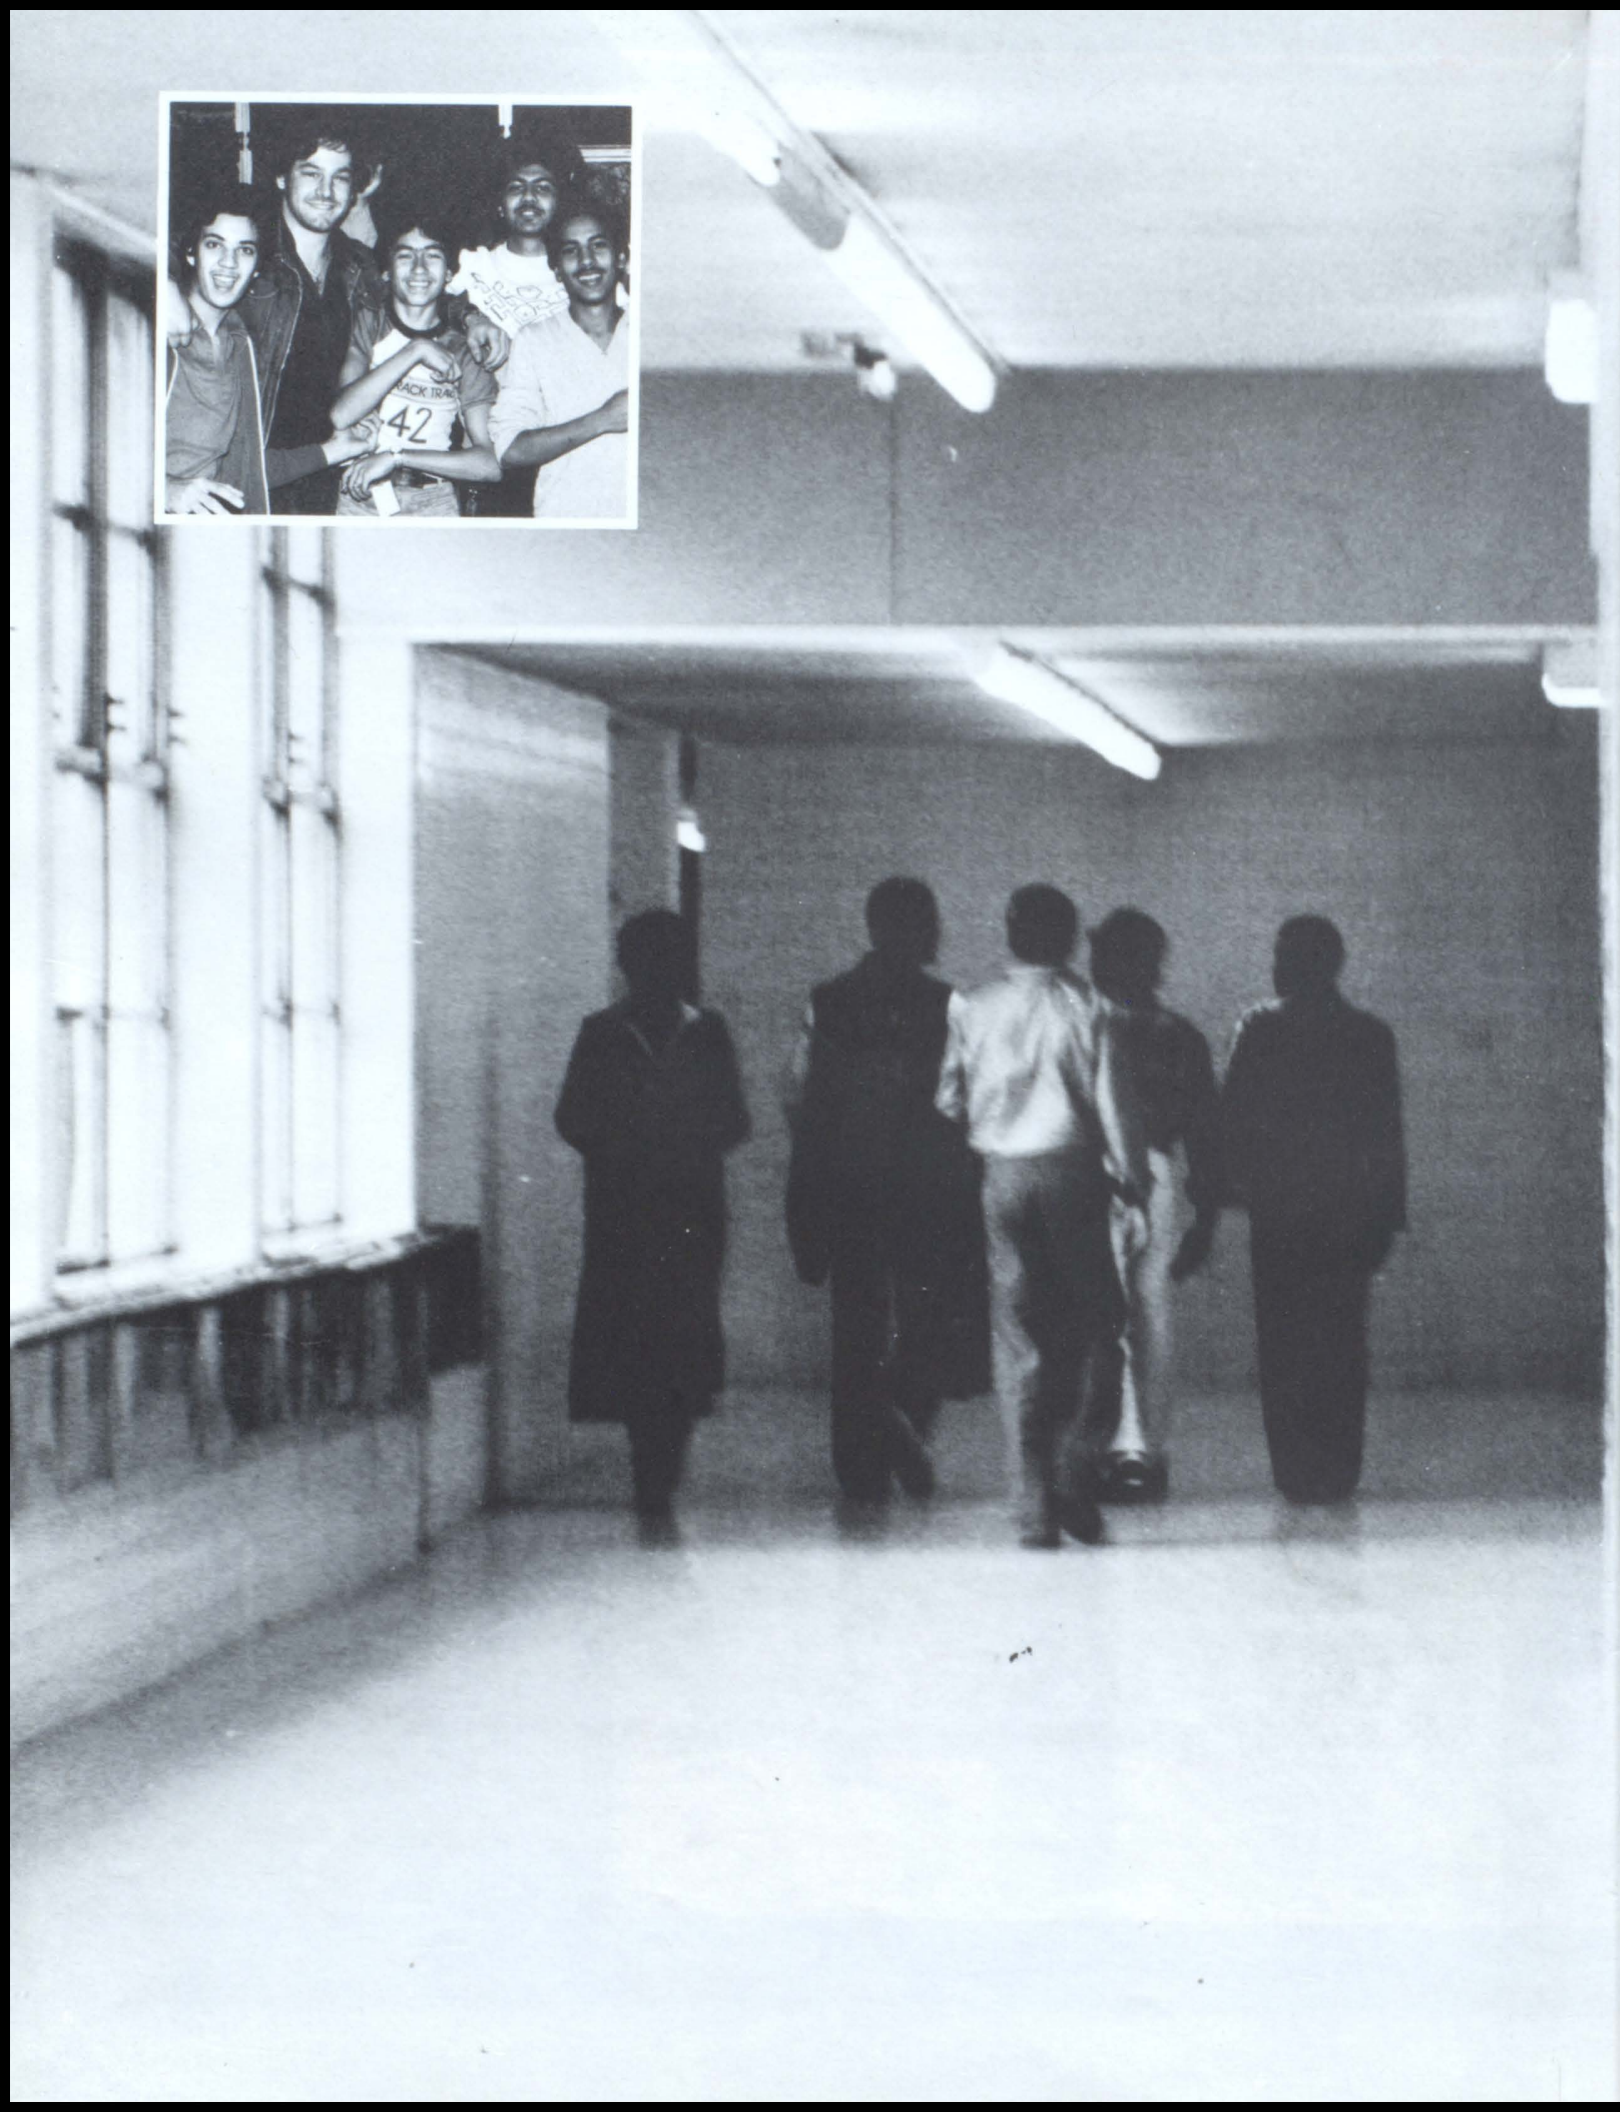

the world has  
changed so very  
much from what  
it used to be, there  
is so much hatred,  
war and poverty.

Wake up all the  
teachers time to teach  
a new way,  
Maybe then they'll  
listen to watcha have  
to say.

Cause they're the  
ones who's coming  
up an' the world is in  
their hands.

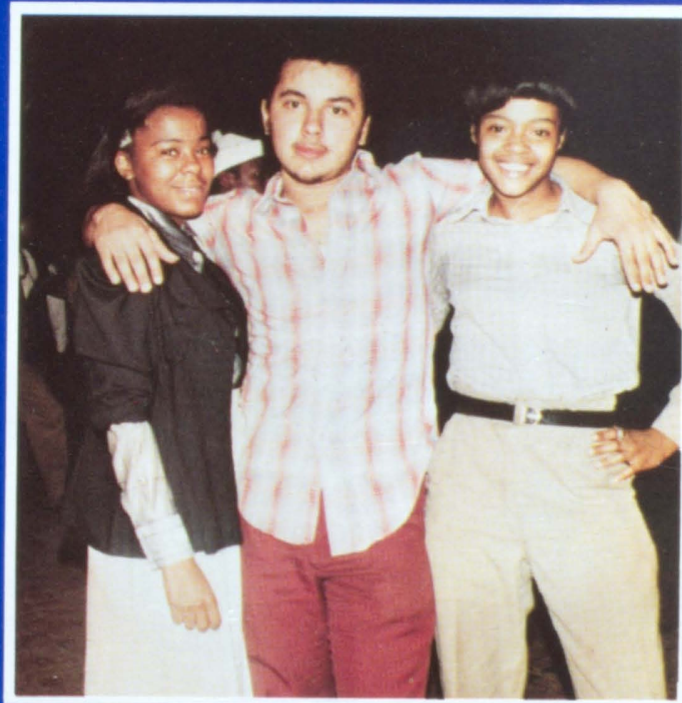

So when you teach  
the children, teach  
'em the very best you  
can.

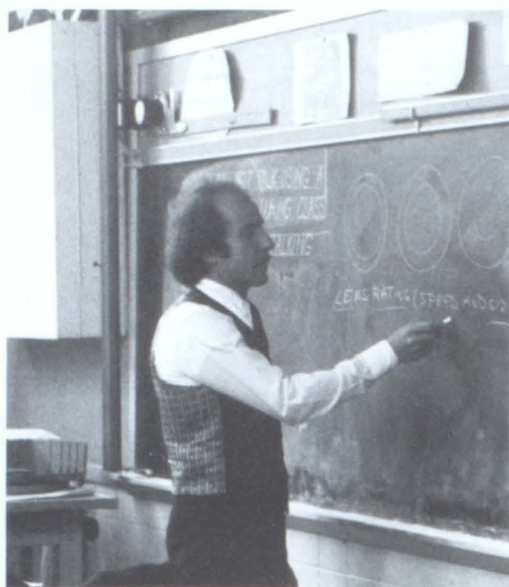

the world won't get  
no better if we just let it  
be, the world won't get no  
better we gotta change it  
just for you and me.

Wake up all the  
doctors make the  
ol' people well.  
They're the ones  
who suffer  
an'who catch all  
the hell.

But they don't  
have so very long  
before the  
judgement day.

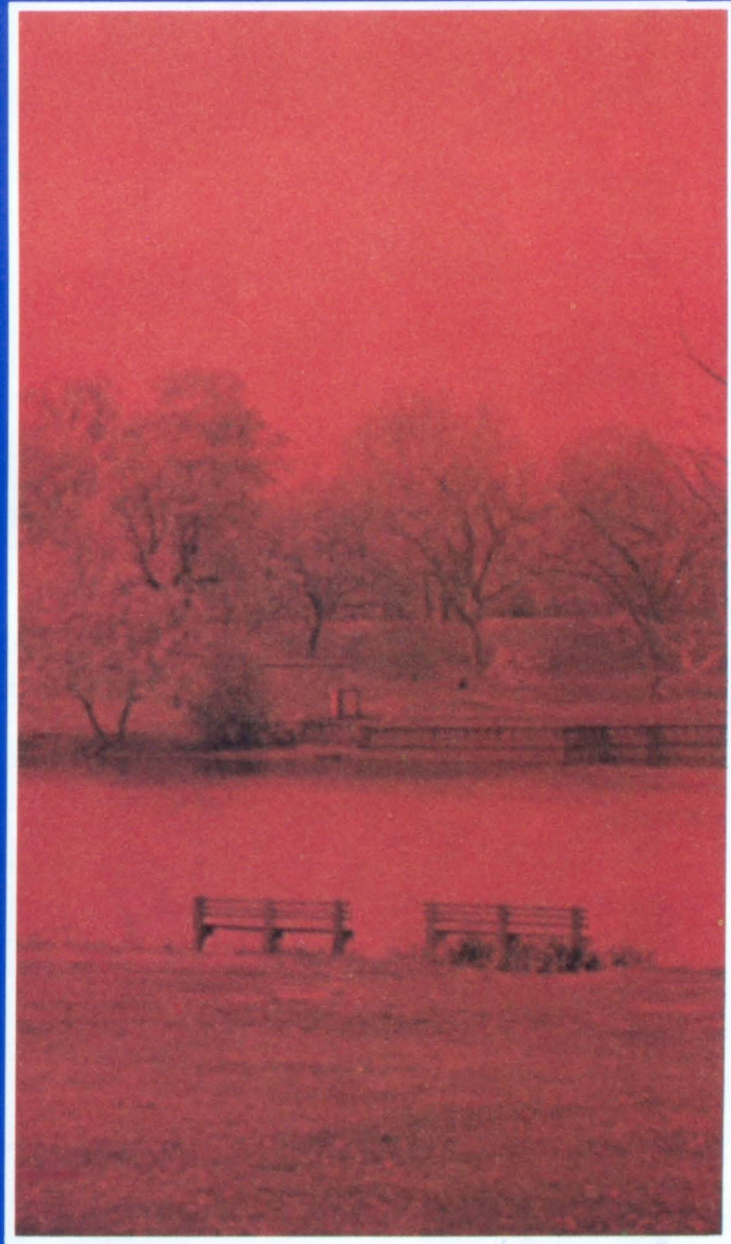

so won't you just  
make them happy before  
they pass away. wake up  
all builders, time to build  
a new land, i know we  
can do it if we lend a  
hand.

the only thing we  
have to do is put it in our  
mind.

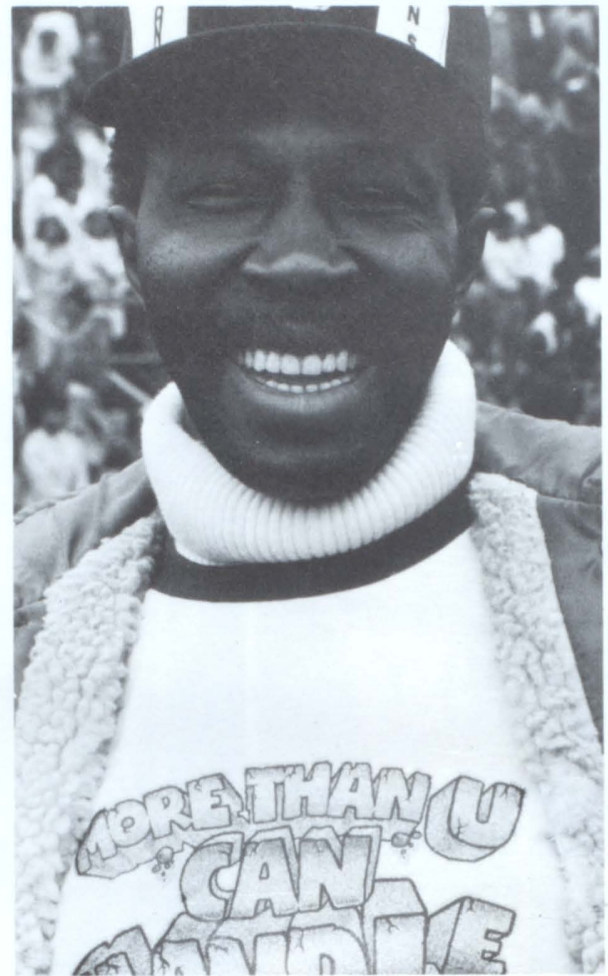

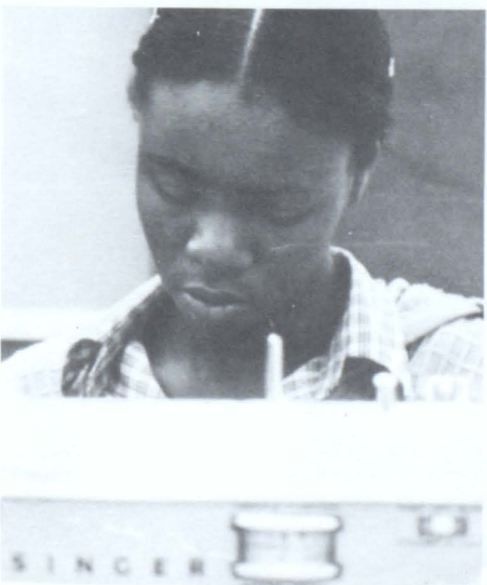

And surely  
things will  
work out, they  
do it  
everytime. The  
world won't  
get no better if  
we just let it  
be.

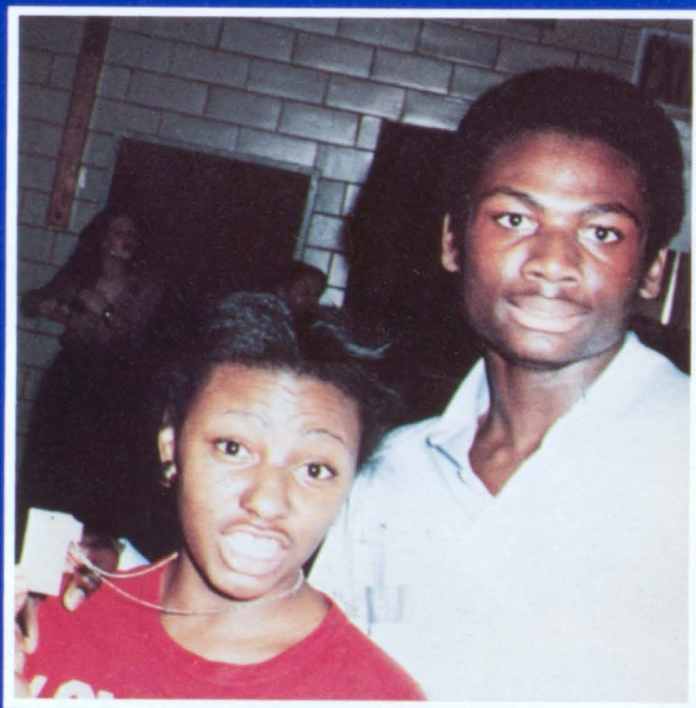

the world won't get  
no better, we gotta change  
it for you and me.

## ALMA MATER

Over many a city old, famed in song and story. Temple grey and castle old, catch the sunset glory. So our Alma Mater proud looks o'er vale and meadow high between the sailing cloud and its drifting shadows. For her colors, first the blue of the April valley's. Then December's wintry here when the storm winds rally. Barringer, the fame we raise, many voice blending; Through the years we pledge the praise loyal to life's ending.

## REVIEW OF THE 70'S

The decade of the 70's has left us with many memories:

- \* The end of the long and unpopular Vietnam War
- \* A visit to China by Richard Nixon which opened the door with our country after more than 20 years
- \* Treaty signed by the leader of the Soviet Union and President Nixon which gradually relaxed the tensions between both countries
- \* The advancement in our computer era
- \* A need to use and conserve our natural resources wisely
- \* Pollution which has endangered all living organisms
- \* Gas lines caused by the boycott in the Arab country
- \* From the moderate cost of living to sky-rocketing inflation
- \* The Watergate scandal which caused President Nixon to resign and Gerald Ford to take charge
- \* The Bicentennial visit to Mars
- \* The days in which we freaked and/or hustled our bodies to the overnight fad of the disco and the color lights which reflected upon us
- \* The long dispute for the Concorde to land in New York
- \* The chance to have seen "Star Wars"
- \* The movie series of "Roots" which changed the thinking of many people
- \* The religious deaths in Jonestown
- \* Peace treaty signed in the U.S. by Egypt and Israel
- \* The miracle breakthrough in microsurgery
- \* Chaos caused by the "Three Mile Island"
- \* The warm and religious visit from Pope Paul II
- \* Air traffic which jeopardizes our heads
- \* The speech by Fidel Castro in the United Nations
- \* Iranian conflict

These were our times in which we grew and flourished mentally and physically. Now it is our turn to step up and make history.

YOU

Without a love to hold on to  
life can be cold  
and even though you're young in tears  
deep inside you're old  
for love is the essence of life  
its reason and its why  
because of the love people go forth  
with faith and strength to try  
even the crowded streets are lonely  
for those who walk alone  
but those who travel together  
are in a world all their own  
no matter who you are  
you need a love to endure  
without it you have lost the means  
to get that magic cure  
I've found a love to hold on to  
one tender and true  
Whatever happiness there is  
has surely come from you  
thank you for your love.

#### GRADUATION

Our future is in front of us. Now is the time that we say farewell to all of our friends. Like a tree alone We must Decide: College, trade school, Armed Forces or just a good job. The Directory Lists our friends phone numbers, addresses etc. After graduation we spread out like branches on a tree. We try to reach out to what is better for us. Like a seed we grow; changing constantly. We are young adults and have to start thinking about our future. This is the most exciting day of our life.

### LAST LOVE

Forget his name, forget his face,  
Forget his kiss and warm embrace.  
Forget the love that once was true,  
Remember now there's someone new.

Forget the love that once you shared,  
Forget the fact that once he cared.  
Forget the times you spent together,  
Remember now he's gone forever.

Forget I cried the whole night long,  
Forget him when they play our song.  
Forget how close you two once were,  
Remember now he's chosen her.

Thomas Jeffers

On November 2, 1979 Steven Harper departed from us to go on to a place beyond our reach. This was Stevie's last year at Barringer. We will surely miss him. He was always giving and bringing joy to everything and everyone he touched. He looked forward to graduating with the class of "80" as many of us did, but a tragedy took him from us and so we are now faced with a loss of a true friend. We are glad that we had a chance to know such a person in our lifetime.

# SCIENCE CLUB

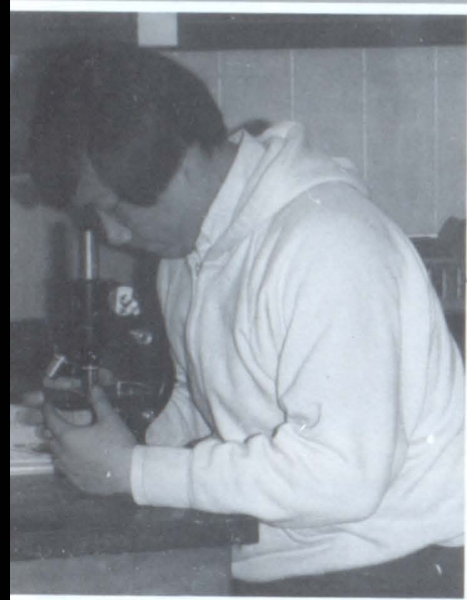

By using this geigercounter, we find that there is no dangerous radiation in this area — yet.

There is the Hackensack Meadowland, you can find anything there.

First you must see, and then it gets you to think about the science principles involved.

Oh, my God, what is that big monster under the water?

Let's get the reading fast, because I am freezing to death.

It is a bird, it is a plane . . . so take care of it.

Fasten your seat belts, we are going 60 miles per hour.

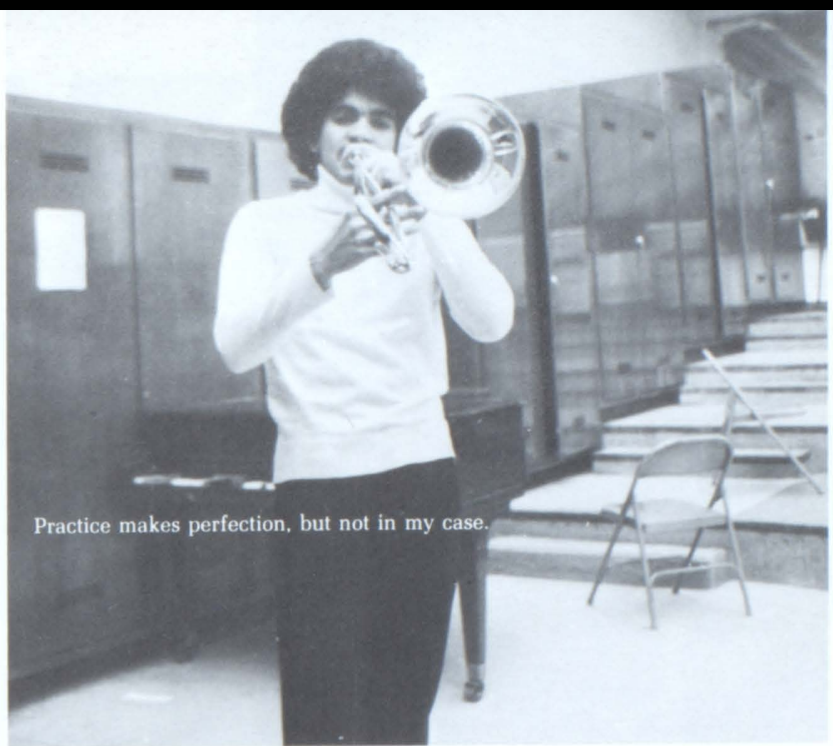

Oh, my lord! This water is contaminated, the smell almost burns my nose.

Who says I can't play??

Practice makes perfection, but not in my case.

Ahh . . . Shut up

we stand on the threshold of a new decade.

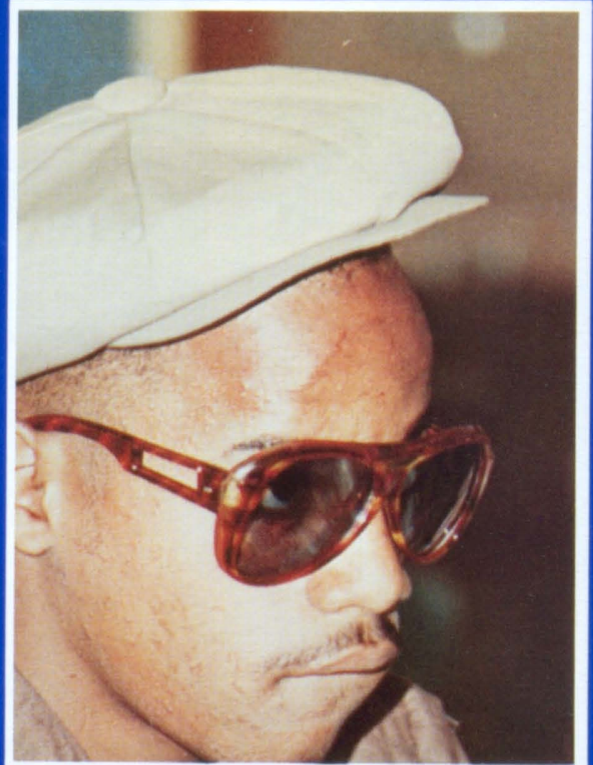

Fog shrouds our vision of the future, As the meanings of success confuse us: A Family, A Career, Wealth . . . A Lifelong search begins.

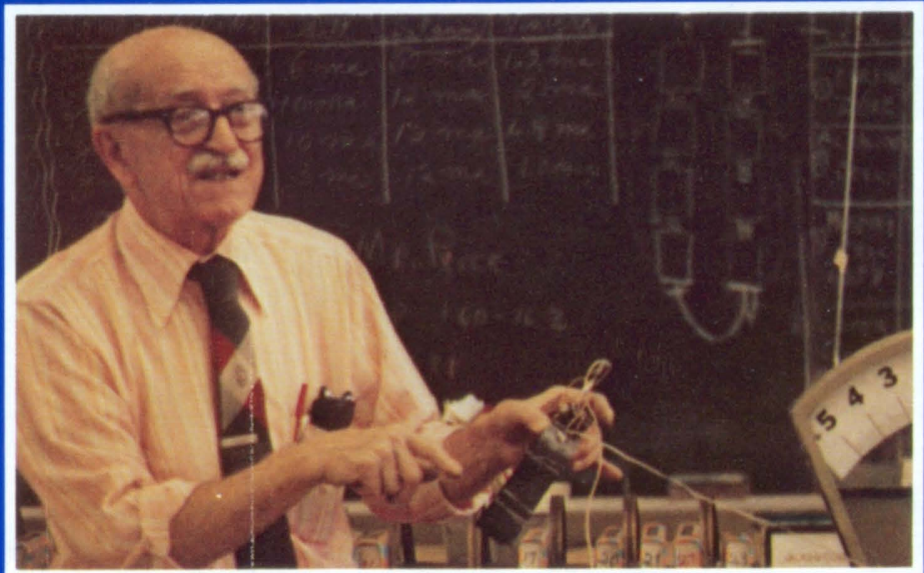

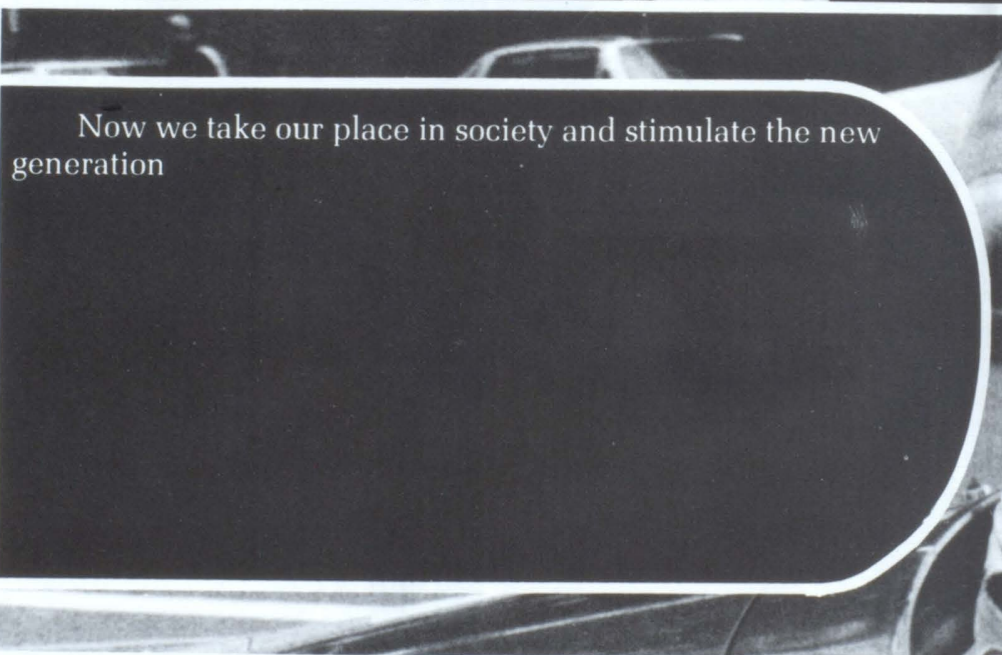

we struggle  
through the 70's, a  
period of turmoil and  
growth

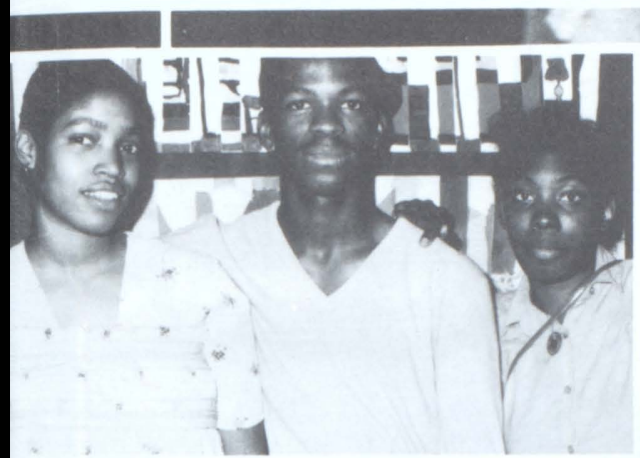

Now we take our place in society and stimulate the new generation

for we are the spirit of the 80's
